

<u>Specification / Feature</u>	<u>SilverJack SJ300 (North America)</u>	<u>Comparable Imported Unit (China)</u>
Max. Stroke Length	300 in	291 – 306 in
Max. Polish Rod Load	50,000 lbs	36,000 – 50,000 lbs
Max. Stroke Per Minute	Up to 5.0	4.3 – 4.5
Unit Weight	≈ 18,500 lbs	≈ 100,000 – 107,000 lbs
Setup Time	≈ 1 day	≈ 2 days
Unit Height (Retracted)	250 in	485 – 535 in
Unit Height (Extended)	399 in	485 – 535 in
Horsepower (HP)	100 HP	125 – 150 HP
Estimated Setup Cost	Baseline	~8 – 20% higher
Estimated Freight Cost	Baseline	~150 – 200% higher
Estimated Maintenance Frequency	Baseline	~25% higher (typical)
Remote Monitoring & Optimization	Available	Not available in standard models
Adaptive Load Control	Available	Not typically equipped
On-Site Data Recording	Available	Not typically equipped
Adjustable Counterbalance (Remote)	Available	Not typically equipped
Real-Time Performance Feedback	Included	Limited  or optional
